

# UNICAM LIBRARIES

## RESOURCES AND SERVICES

---

SCHOOL OF ADVANCED STUDIES  
CAMERINO, 10 APRIL 2017

“The very existence of libraries affords the best evidence that we may yet have hope for the future of man.”

T.S. Eliot

# AGENDA

- Advanced services to support your information needs
- Key information resources for your area of research
- On and off-site access to collections

# UNIVERSITY LIBRARY SYSTEM

- Reference services (collection development, information literacy, interlending and document supply)
- Digital library services (e-resources and e-services)
- Technical library services (acquisitions and metadata management)
- Front-office services (circulation, assistance)
- Support to research output and impact (Institutional Research Repository)
- Intellectual property rights and open access advocacy

# UNIVERSITY LIBRARY SYSTEM

some figures

- Collections and available resources
  - Books and non-book materials – 409.000 items
    - 180.000 records in opac
  - Print journals – 5.300
  - E-journals – 35.000
  - Databases – 33
  - E-books – 11.800
  - Free e-books – 23.000
- Services
  - Loans – 16.000
  - Interlibrary loans, document supply – 4.500
  - Weekly opening hours – 325
  - Seats – 273

# c@m.search

- One-stop discovery and search tool which integrates results from a variety of resources via a single search box
- Books, e-books, journals, e-journals, full-text articles, free online resources, such as datasets, millions of bibliographic citations from international authoritative databases
- Single Sign-On for online customized services
- On-site and off-site access

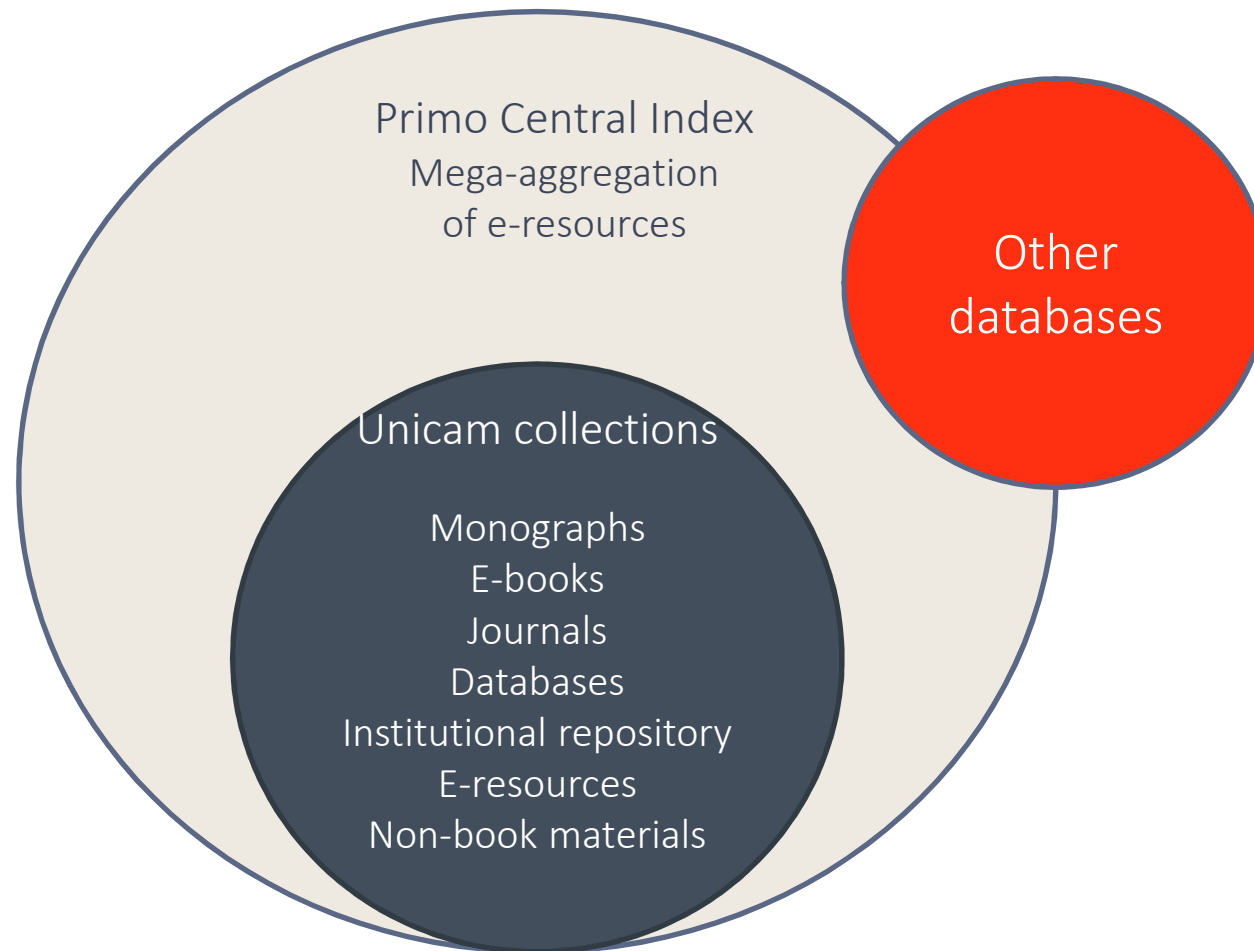

# c@m.search

The screenshot shows the homepage of the c@m.search library system. At the top left is the UNICAM logo (University of Cambrige) and the text "c@m.search biblioteche UNICAM". On the top right, there is a language selector set to "English". Below the header is a search bar with a dropdown menu currently set to "All resources". To the right of the search bar is a red "Search" button and links for "Advanced Search" and "Browse Search". Below the search bar, there is a section for "Search Limited to:" with a dropdown set to "All items" and a text input field containing "that contain my query w".

In the center, there is a section titled "What" with a sub-heading "An in disco". The text describes the library's offerings: "research. With a new uncam collections, almost all databases, e-journals, full-text articles, e-books, the Institutional Repository CamPus and free online resources. By signing in, you can save your searches, renew loans, reserve books and take advantage of other customized services." Below this text is a photograph of a wooden bookshelf filled with books.

On the right side, there is a "Library News" section titled "University Library System". Underneath, there are several menu items: "Search Tools" (with a sub-menu including "Data Bases", "Electronic Journals", and "CamPus Scientific Publications"), "Hot Articles" (with a rainbow icon), and "Servizi" (with a sub-menu including "Access from Home", "Ask to the Librarian", "Interlibrary Loan", and "Supply of articles").

# c@m.search content outline

# Some tips

- All resources
  - journal articles
  - full-texts (e-journals, e-books, reviews, legal documents)
  - images and videos
  - institutional repository Campus, which collects all scientific publications produced by Unicom affiliates
  - open access documents
  - data sets (i.e.: Figshare)
  - citations
  - free online resources (i.e.: Wikipedia)
- Unicom Catalogue – paper collections
  - a book, or a journal is available in the library holdings
  - the book can be borrowed
  - the book is on shelf
  - what the library holds on a specific subject
  - paper journals: if an electronic version is also available

# Citation Management Tools

- Import citations from databases, websites, and library catalogues
- Manage, categorize, and organize citations
- Create and format bibliographies in most output styles (e.g., AMA, MLA, Chicago etc.)
- Attach pdfs, images, etc. to citations in your collection
- Write notes and annotate pdfs attached to your citations
- [c@m.search](mailto:c@m.search) works very well with Zotero

# Example from c@m.search

# Comparison between some CMT

- Reasons to choose Zotero
  - It is the easiest method to gather citation records for non-PDF and PDF content. Zotero's single-click capture works with more databases, catalogs, and websites than Mendeley's Web Importer. You can also enable the retrieval of PDF metadata, which allows you to create citation records just from dragging a PDF into Zotero. Zotero is open source.
- Reasons to choose Mendeley
  - Your research content is primarily contained in PDF files: Mendeley has an integrated PDF viewer and can create citation records just from importing a PDF file. Mendeley.org has a strong website and community platform.
- Reasons to choose EndNote basic
  - Create an online account to search, save and use your research sources; Search the 5 most popular databases of your choice; Save and organize the references you find (up to 50,000); Integrate with Microsoft® Word to properly cite and format your paper; Choose from the 21 most popular bibliography formats.

# Databases

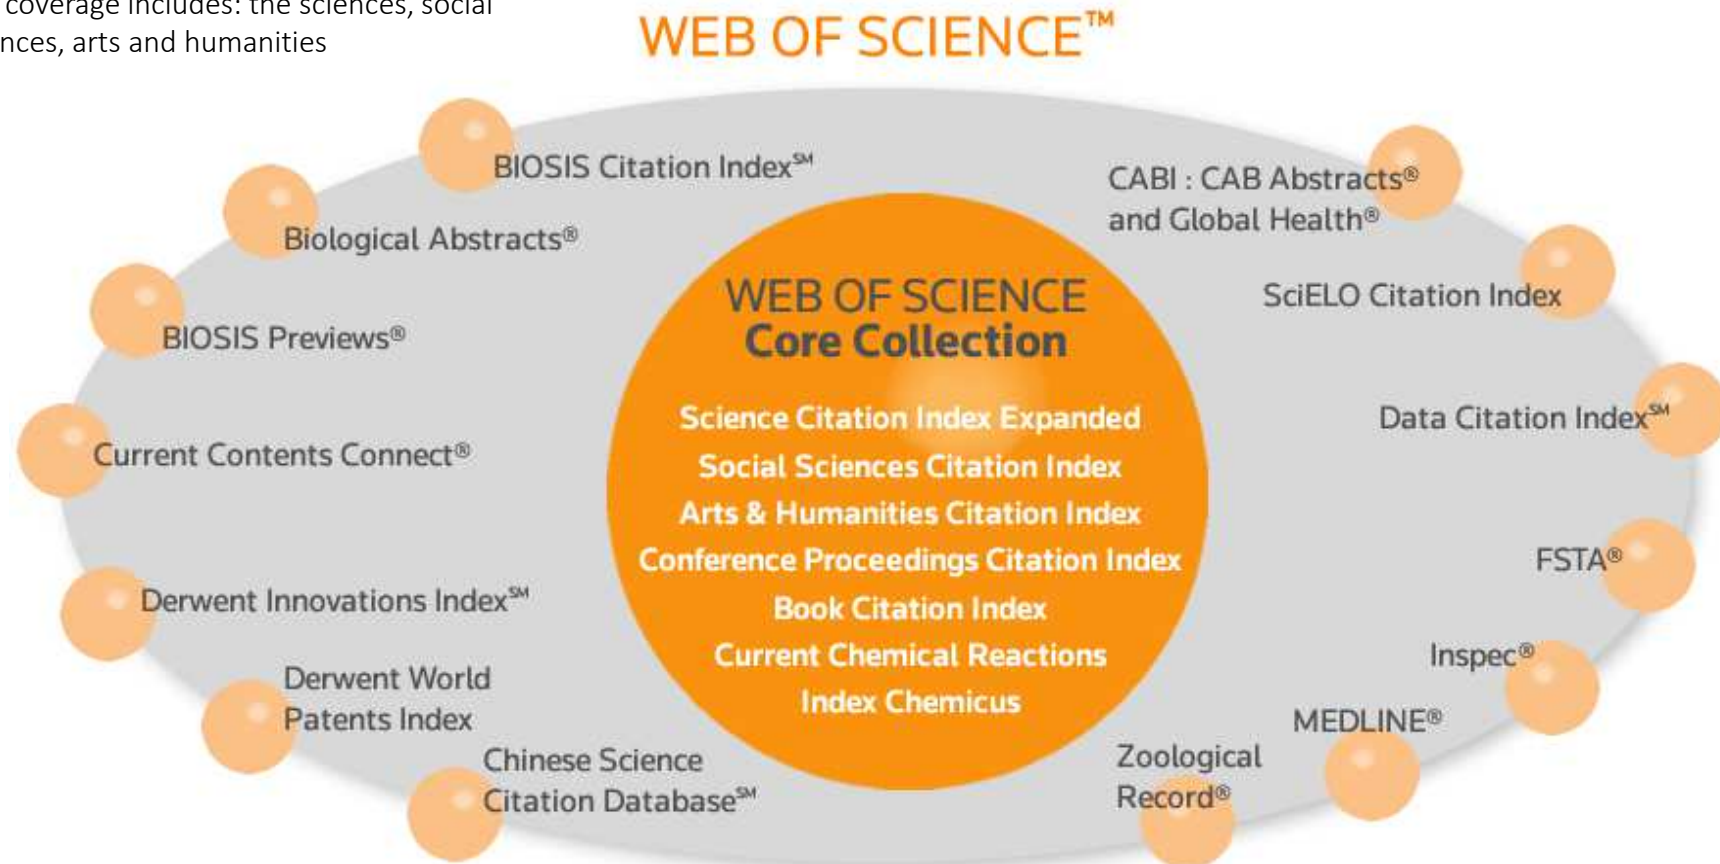

- Library website → Risorse → Banche dati
- Unicam website → Servizi on-line → Risorse bibliografiche

The screenshot shows the UNICAM website interface. At the top, there is a navigation bar with 'Risorse', 'Chi siamo', and 'Strumenti'. Below this, a secondary navigation bar includes 'Posta Elettronica', 'Portale della Didattica', 'Rubrica', 'Servizi on-line', and 'Scuole d'. A dropdown menu under 'Servizi on-line' is open, listing various services. A red box highlights a sub-menu under 'Risorse' which includes 'c@msearch - Catalogo di Ateneo', 'Banche dati', 'CamPuS Pubblicazioni Unicam', 'Ecum Archivio tesi dottorato', 'ARCH-Space Archivio tesi di laurea Architettura', 'Accesso da casa', and 'Rete IDEM/GARR'. Another red box highlights the 'Risorse Bibliografiche' option in the main dropdown menu, with a white arrow pointing to it. In the bottom left, a 'NAVIGA' sidebar lists 'Ateneo', 'Offerta Formativa', 'Ricerca', 'Impresa e Territorio', and 'Press Room'. The UNICAM logo and name are visible in the top left of the page content.

# Web of science content overview

# Web of science

The screenshot displays the Web of Science search interface. At the top, the text "WEB OF SCIENCE™" is visible. Below this, there is a navigation bar with "Search" and "All Databases" (with a dropdown arrow). A search input field contains the text "food chemistry". To the right of the search field is a "Basic Search" dropdown menu. Below the search field, there are several options for database selection: "All Databases", "Web of Science™ Core Collection", "KCI-Korean Journal Database", "MEDLINE®", and "Russian Science Citation Index". A "Learn More" link is positioned below these options. To the right of the database selection area, there is a "Topic" dropdown menu and a "Search" button. Below the search area, there is a "TIMESPAN" section with radio buttons for "All years" (selected) and "From 1950 to 2017". A "Reset Form" link is also present.

# Web of science: basic topic search

The screenshot shows the Web of Science interface with search results for 'TOPIC: (food chemistry)'. The results are sorted by 'Publication Date -- newest to oldest'. Three records are visible, each with a 'Full Text from Publisher' button. A blue box highlights the 'Full Text Options' dropdown menu, which includes 'Find It', 'Full Text from Publisher', and 'NCBI'. A grey box highlights the 'Save to EndNote online' dropdown menu, which includes 'Save to EndNote online', 'Save to EndNote desktop', 'Save to ResearcherID - I wrote these', and 'Save to Other File Formats'. A white dialog box titled 'Send to my.endnote.com' is open, showing '3 records selected' and a dropdown menu for 'Record Content' set to 'Author, Title, Source, Abstract'. The dialog has 'Send' and 'Cancel' buttons.

# Scopus author details

## Author details

The Scopus Author Identifier assigns a unique number to groups of documents written by the same author via an algorithm that matches authorship based on a certain criteria. If a document cannot be confidently matched with an author identifier, it is grouped separately. In this case, you may see more than 1 entry for the same author.

# Google Scholar

- Google Scholar is a freely accessible web search engine that indexes the full text or metadata of scholarly literature across an array of publishing formats and disciplines.
- Released in beta in November 2004, the Google Scholar index includes most peer-reviewed online academic journals and books, conference papers, theses and dissertations, preprints, abstracts, technical reports, and other scholarly literature, including court opinions and patents.
- Third-party researchers estimated Google Scholar's database to contain roughly 160 million documents as of May 2014.

# MyNilde: advantages

- You can log on and use the service anywhere
- No ID and password to remember, just your Unicam account
- Some of the most common databases (PubMed, Scopus, Web of Science etc.) do the same
- You can check your request status anytime and get a feedback by e-mail
- All your requests are recorded

# Off-campus access to e-resources

- License agreements of all Library electronic resources permit access from off-campus
- Only for currently-enrolled Unicam students, staff, faculty and other affiliated users
- Before gaining access to these resources, users must:
  - configure their browsers to gain access through a proxy server to Unicam IPs network
  - instructions can be found at [Accesso da casa](#)
  - log in with your Unicam username and password
- If you have forgotten your credentials, contact CINFO by calling (0737 402113) or send an e-mail to [cinfo@unicam.it](mailto:cinfo@unicam.it)

# Unicam proxy server

- [Library website → Risorsse → Accesso da casa](#)
- Unicam proxy server is one of the way to access restricted, subscribed library resources
  - Server: proxy.unicam.it or 193.204.8.28
  - Port: 3128
- Unicam's VPN (Virtual Private Network) service does not provide off-campus access to e-resources, but only to a desktop within Unicam IP's range and other specific services

contact:

[cinfo@unicam.it](mailto:cinfo@unicam.it)

[biblioteca.digitale@unicam.it](mailto:biblioteca.digitale@unicam.it)

# Unicam login via IDEM

- [Library website → Risorse → Rete IDEM/GARR](#)
- The [IDEM/GARR](#) federated system of authentication allows direct access (using Unicam credentials) to some of the most important electronic resources subscribed by the University from virtually anywhere in the world.
- Up to now the following platforms are accessible through the IDEM / GARR network :
  - [ACS American Chemical Society Journals](#)
  - [c@msearch \(il catalogo di Ateneo\)](#)
  - [Nilde \(Italian document delivery network\)](#)
  - [Design and Applied Arts Index](#)
  - [Reaxys](#)
  - [RSC Royal Society of Chemistry Journals](#)
  - [Science Direct \(Elsevier Journals\)](#)
  - [Scopus](#)
  - [Web of Knowledge](#)

Servizi » chiedi @I bibliotecario

## chiedi @I bibliotecario

E' un servizio di reference online che il Sistema Bibliotecario Unicam offre a tutti i suoi utenti locali e remoti.

Possono essere poste semplici domande relative a:

- Servizi delle biblioteche
- Localizzazione e disponibilità di libri, periodici, risorse elettroniche, etc...
- Suggerimenti in merito all'utilizzo del catalogo online
- Suggerimenti relativi ad altri strumenti di ricerca
- Completamento di citazioni bibliografiche.

Cosa fare?

- consulta il portale della ricerca [c@m.search](#), le banche dati, le riviste elettroniche
- compila il modulo per la richiesta delle informazioni (le risposte saranno fornite entro due giorni lavorativi)
- usa il servizio Bibliochat (attivo dal lunedì al venerdì, dalle ore 10.00 alle 13.00 e dalle 15.00 alle 17.00) dalla homepage di [biblioteche.unicam.it](#), oppure scarica la app ASK@librarian, disponibile per qualsiasi dispositivo mobile.

Per richieste ancora più dettagliate contatta direttamente i bibliotecari:
